

about the network and this map:

The Dallas Pedestrian Network is a system of public and private pedestrian corridors connecting offices, garages, residences and hotels in downtown Dallas. This map shows the current scope of the Dallas Pedestrian Network as of January 2015. Access points in this guide indicate ground-level connections with points of interest, mass transit and public space. Each segment is independently operated and access hours are subject to change. For an online map visit www.dallaspedestriannetwork.info.
